

Qulon LiTouch

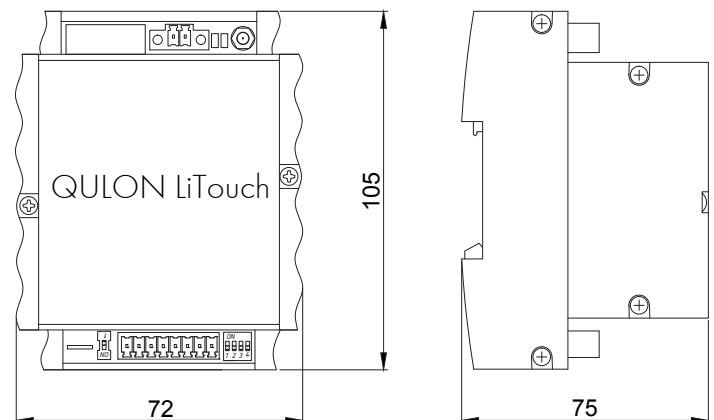

Individual control module for wireless solutions

Qulon LiTouch is additional module that provides individual remote light control of luminaires with installed LiTouch nodes wirelessly via radio channel. Installed together with Qulon-C (Central Gateway) into existing lighting cabinet. Connected to the central controller Qulon-C via RS-485 interface (ModBus). Acts as a master to send/receive data to/from wireless modules (slaves). It communicates with the slaves using 800-950 MHz wireless interface.

Key Features

- Provides individual control and power regulation of discharge lamps with an electronic ballast and a built-in LiTouch node
- Provides individual control and power regulation of LED lamps with a built-in LiTouch node
- Connected to Qulon-C over RS-485 (MODBUS RTU)
- Full galvanic isolation of RS-485 interface
- Built-in power supply ~100-270 VAC

QULON

QULON CCMS by Sundrax Electronics provide extreme performance and reliability for fail-proof individual remote control of any luminaire type bringing adaptive lighting and is increasing or dimming the lights on demand. Professionally tailored on CCMS collects various electricity data from lighting cabinet (current, power factor, cumulative power (kWh/kVAh), active and apparent power, voltages, etc) and then sends it to server via GSM/GPRS/EDGE mobile network. All the programming of central module of CCMS is done remotely from the software. All created on/off/dimming schedules are stored in it so all equipment can operate without internet connection.)

Qulon LiTouch

Individual control module for wireless solutions

Technical Specifications

Mechanical

- Housing: DIN mounted case (4 modules)
- Material: Metal, Plastic
- Dimensions, mm: 72(D) x 105(H) x 75(W)
- Mass: 0.35 kg
- Mounting: DIN rail in the power cabinet or individual waterproof box

Power & Electrical

- Input Voltage: ~100-270 VAC, 50/60 Hz
- Input Power (max): 5 W
- Mains Fuse: 0.5 A

Environmental

- Operating Temperature: -40...+70°C
- Storage Temperature: -50...+80°C
- Operating Relative Humidity (max): 95%
- IP Rating: IP 20
- Certification: CE, RoHS
- Warranty: 36 Month (Return to base)

Inputs / Outputs

- Connectors: Terminal blocks 15EDGVC

Interfaces and Protocols

- Data exchange: ISM band 868/915 MHz
- Max output power: 16 dBm
- Serial interface: RS-485
- Max length of RS-485 line: 1500 m

Configuration / Indication

- Setup: Remote via Qulon-C
- Indication: LEDs for Power and RS-485 activity

Package Contents

- Qulon LiTouch module
- User guide
- Connectors kit

Product Line

Name	Modification	Product code
QULON LiTouch	868 MHz	QUL-RF-EXT-WIR868
	915 MHz	QUL-RF-EXT-WIR915
